CAREER OBJECTIVES

Dedicated and adaptable Biologist seeking a position in a dynamic and innovative organization. Eager to apply strong research, analytical, and problem-solving skills to contribute to meaningful projects and grow professionally in a science-related or any field.

EDUCATION

Master of Science in Biology

2023 - Present

Central Luzon State University

- Thesis on "Molecular-Assisted Identification, Chemical Composition, and Biological Activities (Antibacterial and Antifungal Activities) of Selected Marine Microalgae and Macroalgae from Luzon Island, Philippines".

Bachelor of Science in Biology (Biotechnology Major)

2018 - 2022

Central Luzon State University

- Thesis on "Mycelial Growth Performance and Mycoaccumulation Abilities of the Three *Volvariella volvacea* strains in Arsenic-Contaminated Rice Straw"

WORK EXPERIENCES

Research and Development Specialist II

May 2023 - Aug 2023

- Executed laboratory-scale experiments for new product formulations as directed by the R&D Head.
- Conducted studies for product improvement, cost-saving measures, and process enhancements for existing products.
- Developed and created raw material specification documents for all approved spices materials.
- Performed shelf-life studies to establish and validate standards for finished product packaging.
- Facilitated comprehensive sensory evaluations of improved products, managing all stages from sample preparation to statistical analysis (using statistics) and final report generation.
- Conducted raw material evaluations and product applications

TRAININGS ATTENDED

02/08-25/2026 <i>Teacher Records</i>	Teaching English as a Foreign Language DNA Extraction, PCR, Designing Primers, Construct Phylogeny, Align DNA sequence
1/14-16/2024 <i>Flora and Fauna Analytical Lab.</i>	Workshops on Nucleotide Sequencing and Identification of Mushrooms DNA Extraction, PCR, Designing Primers, Construct Phylogeny, Align DNA sequence
2/19-21/2024 <i>Banana and Cacao Disaster Management</i>	Identification of Mitosporic Fungi Identify and classify fungi and culture fungi
10/11-21/2021 <i>Unilab Inc.</i>	ON-THE-JOB TRAINING • Animal handling, in vivo safety and efficacy tests, specifically toxicity testing, efficacy testing, dose selection, and sample preparation, Acute Oral Toxicity Test, and Eye Irritation / Corrosion Test in lab animals • Basic Techniques for Cell Culture, including aseptic technique, computing cell counts, and cell subculturing. • DNA extraction and PCR
9/26-27/2021 <i>PGC Mindanao</i>	Training in Molecular Biology, Basic Primer Design, Genome Sequencing, and Phylogenetic Analysis Primer design, DNA extraction, genome sequencing, and constructing a phylogenetic tree using MEGA software
8/19/2021-9/2/2021 <i>BFAR-NFITDC</i>	Training on Various Aquaculture and Post-Harvest Technologies Farming and harvesting prawn, tilapia, bangus, hito, sea cucumber

ELIGIBILITY / CERTIFICATION

- Career Service Professional / Second Level Eligibility

ADDITIONAL INFORMATION

- **Technical Skills:** Molecular (DNA Extraction, PCR, Phylogentic Analysis), Chemical Analysis, Basic Microbiological Techniques, Research and Report Writing, Good Laboratory Practices, Project Management, Micosoft Office / Canva / Adobe, Computer Literate, Administrative
- **Languages:** English, Fililipino
